EAST AND WEST HAVE JOINED HANDS.

The National Irrigation Congress a Glorious Success in Its Unity-Strong Principles Evolved.

(BY DIRECT WIRE TO THE TIMES.)

HICAGO (III.,) Nov. 22.-[Exclusive Dispatch.] Though the papers read before the National Irrigation Congress today were splendid, yet they were less interesting to those who have long been advocating national irrigation than were the discussions. These latter, reflecting a wide public sentiment, show how thoroughly men from all over the country have gotten together upon the great principles of national irrigation, differing only upon the mere details. Senators, Congressmen, lawyers and professional men, more than two dozen, discussed this problem, the chief point of discussion being as to whether the Federal or the State government should distribute the water.

The strong current of sentiment in the convention s evidently in favor of concentrating energy on the things the West absolutely agreed on, which are expressed in the motto adopted by resolution: "Save the forests and store the floods." George H. Maxwell strongly urged this policy, and it was plain that he struck a responsive chord in the audience.

A striking feature of the discussion has been the evident interest and knowledge on the subject displayed by eastern men in attendance. J. C. Brady of the Wheeling Hinge Company of Wheeling, W. Va., said that the West had not itself awakened to the magnitude of this great question. The West, he said, should ask for \$5,000,000 a year for water storage.

The sentiments expressed in the discussion show that there was also an enthusiastic approval of the fundamental idea of uniting the ownership of land and water by making the ownership of water appurtenant. to land, and making beneficial use the basis of measure and limit of the right to water for irrigation. Also that the public lands should be held for home-builders after they had been provided with water for irrigation.

The western delegates were surprised at the character and enthusiasm of the eastern delegates, and the latter are surprised that the West has not enlightened the East on this problem long ago and been less modest in their demands at Washington.

Hon. Thomas Knight of Kansas City gave one of the best thoughts, Agriculture was but one good result from this policy, vast mining and other industries would be made possible after the desert had become a land of homes. Whenever a dollar can be made, after an irrigation development which could not have been made before, that dollar should be credited to the

erguson, Pomona College. GOV. ROOSEVELTS INTEREST

Roosevelt placed himself on record last evening as being heartily in sympathy with the aims of the National Irriga-tion Congress. His letter, read at the meeting at the Auditorium, went even further than this, for it contained his practical promise of assistance in the ffort which will be made from now or for government aid to irrigation, and his appeal to all "far-sighted citizens" to interest themselves in a movement which will benefit the entire nation.

Gov. Roosevelt's letter was all the nore welcome because it was directly a line. more welcome because it was directly in line, as regards its point of view with the feeling of the congress, as developed in the discussions which had lasted all through the day. It was a paper on the construction of great ed the discussion, and perhap the delegates to the congres is chance to support the projec strong words. Gov. Roosevelt' in part is as follows: believe to the last the vital neces of preserving the forests, expectably

day bring population and abounding prosperity to the vast stretches of the so-called desert in the West.
"Without pretending to outline de-finitely a working scheme. I venture to point out that without the attainment of the following objects your plans must measureably fall:

the extension of a forest reserve sys-tem, hence of government control of the forests.

"4. National protection, use of for-ests under expert supervision.

"5. I urge you to see to it that pri-vate owners of forests in the West and East alike understand that tim-ber can be cut without forest destruc-tion (the Department of Agriculture will tell them how) and that ownership of water rights in arid country and of forest lands anywhere, entails public as well as private duties and respon-sibilities.

The Resolutions Committee was in-structed to embody the sallent points of Capt. Chittenden's argument in their report.

At the afternoon sereion, Col. H
B. Maxson, secretary of the congress
made his annual report.

CAVE THE FORESTS: STORE THE FLOODS.

MOTTO SUGGESTED FOR IRRIGATION CONGRESS.

Numerous Interesting Papers Presented Yesterday—Movement to Have Committee Set Forth Aims and Purposes of the Gathering.

IBY THE NEW ASSOCIATED PRESS—P.M.1 CHICAGO, Nov. 22.—The National Irrigation Congress got down to business today. President Eldwood Meade of Wyoming presided. Sciplo Craig of California made a motion that the motto of the congress be "Save the Forests and Store the Floods," and that a committee on resolutions be instructed to draft a memorial setting forth the objects of the congress, and showing the importance of the reclamation of the arid lands in the United States and fo report Saturday. Capt. Hiram M. Chittenden of the United States Engineer Corps delivered an address. BY THE NEW ASSOCIATED PRESS-P.M.

Capt. Chittenden said in part:

"The industrial growth of any country and its capacity for a high civilization depend in an eminent degree upor its agricultural development. In the western portion of the United States this development is limited.

MILLIONS IN IT INSURE SUCCESS.

Launching of the Great Salt Lake Road Enterprise Which Means So Much to Los Angeles.

(BY DIRECT WIRE TO THE TIMES,)

CALT LAKE (Utah,) Nov. 22.—[Exclusive Dispatch.] After an all-night and all-day session, the Los Angeles and Salt Lake Railway has been fully organized. The Empire Construction Company was formed at the same time for the purpose of equipping and building the road, and in the process of organization is a development company to look after the development of the resources of the country traversed by the

Never in the history of Utah has so important a project been started, a project that is of even greater importance to California. Salt Lake has been filled with men of millions, mining experts, engineers and contractors, and in the long session of the magnates a wonderful amount of business was cleaned up.

Senator W. A. Clark and J. Ross Clark left for Los Angeles today. They will be followed tomorrow by Vice-President T. E. Gibbon and Charles Clark of Missouri. They go to Los Angeles to effect the transfer of Terminal property to the new company, after which the articles of incorporation will be filed.

The Los Angeles and Salt Lake Railway has a capital stock of \$25,000,000, of which \$2,500,000 is paid up. The officers and directors are W. A. Clark of Montana, president; R. C. Kerens of St. Louis, first vice-president; J. Ross Clark of Los Angeles, second vice-president; T. E. Gibbon of Los Angeles, third vice-president and general counsel; T. F. Miller of Los Angeles, secretary; W. S. McCornick, Reed Smoot, Thomas Kearns of Salt Lake; B. W. Clark of Ophir, Utah; Charles W. Clark of Montana; Perry S. orge B. Leighton Heath of Muncie, Ind.; Ger Louis, directors. F. K. Rule of Los Angeles is treasurer, but not a director. Other in Charles Clark of St. Louis, David Keith, C. O. Whittemore of Salt Lake, W. B. Clark of Kansas City, Richard Kerens, Jr., A. H. Handlan and S. A. Bemis of St.

The officers and directors of the Empire Construction Company are J. Ross Clark, president; George B. Leighton, vice-president; H. E. McKee of Los Angeles, secretary. W. A. Clark, W. S. McCornick, David Keith, Reed Smoot, R. C. Kerens, T. E. Gibbon and T. F. Miller, directors. This company is incorporated for \$10,000,000, of which \$100,000 is paid up. The organization of a development company is left to a committee consisting of Messrs. Keith, Kerens, Gibbon and McCornick.

The route is not specifically stated as to the main line, but it is to be built by the best and most practicable route. The line of railway will run from Salt Lake to Los Angeles, with branches to Deep Creek and to Cedar City, the former being the great gold and silver section, and the latter the coal and iron lands. The company will also build many spurs and branches in and around Los Angeles, San Pedro and other points, so as to form a network of feeders at the western terminus.

The headquarters of all the companies will be at-THE Los Angeles, with a branch office at Salt Lake. Work on the San Bernardino extension and at other points in California will be pushed with vigor, and later on work will be commenced at the Utah end. The Pioneers' Square being assured for the passenger terminal gives the new road an entrance to the heart of the business center of Salt Lake, and nearer all points of commerce and interest than any other railroad depot.

The Times correspondent has just left Mesars. Gibbon, Kerens, Leighton and others, and they are delighted at the prospects. Mr. Gibbon says: "The line will be built as quickly as money can build it. There is not one barrier to overcome before the people of the City of Saints can become acquainted with those of the City of Los Angeles by making a twenty-four hour trip over the new road. Eminent success has crowned the efforts of all who have in any way been working for this project. It is a great day for Los Angeles."

Allies May Take Field Again.

Danger of an Uprising Against Emperor.

Jegotiations at Peking also in a Bad Tangle.

Ministers Bert Upon Getting the Heads of the Wicked. Alarm About Czar.

W ASHINGTON, Nov. 22—Exclusive Dispatch.] Chinese affairs never were in a more complicated and bopeless condition than they are today. New entanglements appear to be coming up all the time, and while these are dragging along, the danger that the Boxer troubles will break out again in different parts of the Empire are increasing.

e are increasing.
In thing lately has been heard but troubles in Southern China, are some time ago there was set danger in the uprising disted against the Chinese government itself, and this appears again be coming to the fore, so there is subability that the allied troops I be obliged to take the field ain soon to put down these distances. Any such happening and increase the claims which a powers have against China and put off aviil further the day of all settlement.

MPEBOR'S LIFE MIGHT BE ASSAILED.

ONE REASON WHY THIS COUNTRY OULD GO SLOW.

NEW YORK, Nov. 22.—According to special from Washington to the Her-ld. Minister Conger's dispatch to Sec-

aid, Minister Conger's dispatch to Secretary Hay, asserting his belief that the punishment of Chinese leaders imposed by the decree issued by the Chinese government is not adequate, is opposed to the opinion held by the President and the Secretary of State. Another important development in the situation is that Germany has proposed that, as a condition to continuing the negotiations, China be compelled to execute the eleven Princes and officials alleged to be responsible for the Chinese outrages. This condition is very distasteful, to the administration, which is expected to take steps to secure its modification.

Conger's measure was in response to

tion, which is expected to take steps to secure its modification.

Conger's mensage was in response to an inquiry from Secretary Hay, sent immediately after the presentation of the decree to this government by Minister Wu. The Secretary cabled that the United States did not intend to pursue a policy of vongeance, but stated that, because of Minister Conger's experience, the President necessarily left in his hands the determination of whether the punishments imposed were adequate. Secretary Hay also urged him to take into full consideration the attitude of the Chinese and the ability of the imperial government to carry out more severe sentences.

It is evident to the officials that the siege through which Conger and other Ministers went last summer has angered them against the Chinese and caused them to be foremost in demanding blood explation. In the hope of deterring Minister Conger from any ideas of vengeance, W. W. Rockilli was sent to Peking as his adviser. It is an open secret that the authorities would have preferred the reference of the pegotiations to a dominision formed of commissioners, three in number, appointed by each power, but this plan fatied of ancommissioners, three in number, appointed by each power, but this plan fatied of ancommishement.

by each power, but this plan failed of accommilishment.

The proposal of Germany that the continuance of negotiations depend upon the execution of the Princes and officials thought responsible for the outrages is another form of the proposition submitted to the Washington government several weeks ago by Baron Von Sternberg, the Germany proposed at that time, as a condition precedent to negotiations, that the Chinese government be compelled to surrender the first and real perpetuators of the crime committed against international law.

The response of the United States was that it could not join a demand of

STORM HAVOC

this character; that China should be given an opportunity to punish the criminals, and that provision for their punishment should be made in the negotiations for final settlement.

The President is considering the new German proposal, and he will probably decline to agree to it, suggesting some modification that may lead to a satisfactory solution.

An official said that as some of those condemned by the Ministers are powerful Princes and officials controlling Chinese forces, it is plain that unless the imperial government is desirous of carrying out the ultimatum of the forcing representatives and is able to arrest the culgrits quickly, they are likely to combine in their own defense. The possibility is suggested that they might kill the Emperor. Such an act would be the signal of an anti-forcing outbreak all over China, and would have consequences which the authorities are unable to contemplate. Railroad Damage Will

Telegraph Communication Restored.

Eastern Portion of Merced In-DOES NOT SUIT WASHINGTON.

1BY DIRECT WHIE TO THE TIMES.]

WASHINGTON, Nov. 22.—[Exclusive Dispatch.] Another crisis is fast approaching in Chinese affairs, and the American government is assuming an attitude of great positiveness in its condemnation of the action of the powers. Sharp diplomatic notes have been dispatched from the State Department to various European governments conundated-Solano County Rejoices.

IS IMMENSE.

Reach Thousands.

IBY THE NEW ASSOCIATED PRESS-P.M. BAN FRANCISCO, Nov. 22.—Tele-graphic communication with the out-side world is almost fully restored and details of the storm which raised such progress whatever can be made toward a settlement.

Reports from Peking show the combined demands of the various powers amount to about \$600,000,000 indemnity. This is far more than there is in all China. The Chinese could not pay R if they would, and they frankly say so. If these outrageous demands should be persisted in, they will have to be presented by a minority of the powers for it is already certain that at least one nation will not join in pressing them. The United States favors the punishment of all guilty Chinese officials, but it does not favor punishing them before they are caught, nor without due trist. The United States favors inflicting upon China a fine as great as the country can bear, but no greater. There is serious dissatisfaction here with the work of Minister Conger, and if that official had not recently passed through a most trying siege, it is probable that he would be recalled. Conger is not carrying out the wishes of the President, and instead of being in sympathy with the policy of the administration, he has fallen under foreign influences, and is pressing hard for a big indemnity and plenty of blood.

NEVIN'S STATEMENT.

General Manager W. G. Nevin, whose headquarters are in Los Angeles, arrived in the city today on a special train. He reports numerous small washouts along the routs.

"We have spent a great deal of money of late," said Nevin this morning, "in fortifying ourselves against storms of this kind, and but for this fact, I think the damage to the Santa Pé lines would have been much greater. fact, I think the damage to the Santa Fé lines would have been much greater. But it is bad enough as it is. It would take a terrific storm to hurt us at all, so you can judge for yourself the severity of this storm. It seemed to me more like a cloudburst. We hope to have all our trains running on time again by Friday. Train No. 5, from Bakersfield, due here at 8 a.m., did not get in until 4:30 this afternoon.

"At Legrande the Mariposa Creek flooded the tracks to such a depth that it was impossible for a train to get through. On the Santa Ana road, workmen had just finished the construction of a new bridge; yet, despite its newness, the storm swept away one pier and two spans and did other damage that will take some time to repair."

MERCED INUNDATED.

RAILROAD IN BAD SHAPE.

IBT THE NEW ASSOCIATED PRESS. F.M.)

MERCED, Nov. 22.—The overflow of
Bear Creek last night inundated the entire eastern portion of the town, filling
all cellars and yards and making it
impossible for residents of that part of
town to get to their business houses
this morning. At 11 o'clock today the
waters had gone down considerably,
but many houses are still surrounded
by from two to four feet of it.

The roadbeds of the Santa Fé
and Southern Pacific roads were washed
out in places inside the city limits, delaying trains. Tracks are still in bad
condition, but trains are moving over
them very carefully. RAILROAD IN BAD SHAPE.

SOLANO REJOICES. WHOLE COUNTY BENEFITED.

IN THE NEW ASSOCIATED PRESS-P.M.;

SUISUN, Nov. 22.—General rejoicing prevalls among farmers, orchardists and dairymen throughout Solano county. In Suisun the reinfall was 4.23 inches; Green Valley, 4.36; Suisun Valley, 5.32. From the Vacaville fruit belt and the great grain-raising district between Suisun and Rio Vista, reports of bounteous precipitation are sent.

COLORADO GALE.

RAILROADS HEAVY SUFFERERS.

IPY THE NEW ASSOCIATED PRESS—P.N.1

DENVER, Nov. 22.—It is impossible for the railroads to estimate the amount of damage suffered by reason of the windstorm which swept the lines for nearly one hundred miles along the base of the mountains yesterday and last night. The wires were blown down, and trains are moved with great caution in the absence of telegraphic orders, seriously delaying traffic. Many freight cars had their roofs blown off, station buildings were damaged more or less, all through the storm region, and the tracks strewn with wreckage which further retarded the movement of trains.

Between Pueblo and Colorado Springs houses were damaged, haystacks blown away and out-buildings demolished. The property loss will be heavy among RAILROADS HEAVY SUFFERERS

the ranchmen. The storm stands out a parallel, in many respects. THREE FEET OF IT.

THREE FEET OF IT.

LAGUNA TRACKS COVERED.

(BY THE NEW ASSOCIATED PRESS-P.M.1)

SANTA CRUZ, Nov. 22.—No trains were able to reach Pajaro today on account of a mile of track being under water at Laguna, some places three feet of water covered the track. In consequence no mail from the south was received here today. It is expected that the track will be repaired tomorrow for trains. The rainfall at Boulder Creek for twenty-four hours ending Wednesday, was 7.14, making 17.83 for the season. The schooner Glen was thrown against the wharf today by a big wave. Her rail was smashed.

SACRAMENTO NORMAL.

CALM PREVENTS DOWNPOUR.

CALM PREVENTS DOWNPOUR.

IBY THE NEW ASSOCIATED PRESS—P.M.1

SACRAMENTO, Nov. 21.—Normalweather has prevailed here since the
big storm of Tuesday night. Tonight
the sky is overcast, but there is hardly
a breath of wind, and unless a breeze
comes up rain is not likely to fall. No
reports of damage by Tuesday night's
storm have been received beyond the
breaking of a few windows, the overturning of some windmills and out-

TRACE AT PRESNO. NO DAMAGE FROM PLOOD.

(BY THE NEW ASSOCIATED PRESS-P.

RIVERS BANKFULL. BAN MIGUEL'S LONG SPELL SAN MIGURE, Nov. 22.—It rained almost incessantly from Friday morning until Wednesday at 4:30 o'clock p.m. It is the heaviest rainfall recorded in this section since 1899. The Salinas River is running bank-full and its rushing waters have attracted large crowds to the bridge, a quarter of a mile east of town. In many places the steep perpendicular banks of a week ago are much sunken, and washed away. The Nacimiento and San Marcos are also raging torrents, and every little creek is now a swollen stream. Trains have been delayed all along the line. For the season, 5.05 inches have fallen.

DIKE'S PEAK GALE WROUGHT DESTRUCTION.

COLORADO SPRINGS RECOVERING FROM TERRIFIC WIND.

Two Hundred Thousand Dollars Worth of Damage Done, but No Liver

IBY THE NEW ASSOCIATED PRESS—P.M.1
COLORADO SPRINGS (Colo.) Nov.
22.—The city is rapidly taking on its
normal appearance after yesterday's
storm. The damage will approximate
£200,000, and is due entirely to destruction by the wind, all reports of serious
fire lesses being unfounded. There
were ten alarms of fire in ten hours,
but no serious fires occurred. Incandescent lights are burning tonishi, but
the streets are all dark light wires and
telegraph wires are still strewn across
the trolley wires in many places and
street-railway traffic will not be resumed until some time tomorrow. ness blocks are damaged, and 150 trees are up-rooted. No lives were lost in the storm, and Col. E. T. Ensign, who was struck by a telegraph pole and suffered a broken leg, has the most sexious injury. The storm was not attended by rain or snow. The gale came direct from Pike's Peak, which is west of the city, and it blew grom I o'clock p.m. to F. a.m. At 2:50 o'clock p.m. when the wind gauge at the Colorado College was destroyed, it had registered a velocity of 52 miles per hour. The weather today has been fair and warm with little wind.

AT LEAST SIX FATALITIES.

IBY THE NEW ASSOCIATED PRESS—P.M.1

ceed six, and are confined mainly to DERRICKS DESTROYED.

DERRICAS DESTROYED.

IBY THE NEW ASSOCIATED PRESS.-PM.1

TOLEDO (O.,) Nov. 22.—Yesterday's storm destroyed nearly three thousand derricks in the old fields south and east of here.

BUFFALO BREAKWATER.

IBY THE NEW ASSOCIATED PRESS-P.M. BUFFALO (N. Y.,) Nov. 22.—Inspec tion of the government breakwater shows that a section about 1100 feet in length was demolished by the storm of last night. The damage is estimated at \$20,000.

AND ITS CALENDAR.

CONGRESSMAN STEELE GIVES HIS PERSONAL VIEWS.

Reduction of Taxes a Good Thing— Passage of the Ship Subsidy Bill Probable—Does not Favor Increase of

IBY THE NEW ASSOCIATED PRESS—A.M.)
NEW YORK, Nov. 21.—Representative George W. Steele of Indiana, a
member of the House Ways and Means
Committee, is quoted in a Tribune special from Washington as saying of the
work of the approaching short session;
"I express my personal judgment
only when I say that if would be a
good thing for Congress to take action
toward materially reducing the number and amount of taxes being paid by
the people under the present revenue
act.

intention is to get this measure before the House as early as possible. It
is a bill that ought certainly to pass.
"Under present conditions, I am not
inclined to favor the establishment of
an army of 100,000, as is being advocated in certain sections. Under the
present law we have from 63,000 to 65,
000 men. That is quite a large army.
Now, when the conditions become such
that an army of that size is not needed,
we could easily reduce the number. I
am not in favor of a permanent army
of 100,000 just now, because I want to
ascertain before I vote on the subject
just how many men we are likely to
need when the army in Porto Rico has
been reduced; when troops have been
withdrawn from Cubs. and when the
war in the Philippines resolves itself
into some tangible form, or is concluded, and guerrilla warfare is
stopped.
"I think that the bill previding for a

stopped.
"I think that the bill providing for a reapportionment, so as to regulate the membership of the public in accordance with the increase of population, will be passed. Some States under this law will no doubt surfer, while others will benefit.

benefit.
"I do not think that the subject of decreased Bouthern representation, as a separate matter, will be considered at this session. There is no time for the discussion of that problem during a short session."

LIKE ITS PRINCIPLE.

Thinks also That the American Inventor Will Make the Cost of Vessels Cheaper-Heavy River and Harbor

WASHINGTON, Nov. 22.—[Exclusive Dispatch.] Representative Burton of Ohio, chairman of the River and Harbor Committee, will oppose the Ship Subsidy Bill. It has been known to Burton's friends that he did not favor the payment of subsidies for the purpose of upholding the American meachant marine, but hitherto he has refrained from making his opposition public. Burton said this evening:

"I intended to oppose the Ship Subsidy Bill in its original form, and I always have doubted if it could be passed unless greatly modified. I am still doubtful of its passage, and I probably will speak against it. I am not satisfied that the principle involved in the measure is correct. Besides, I believe that the American inventor will make it possible for ships, to be built here more cheapiy (BY DIRECT WIRE TO THE TIMES.)

for ships, to be built here more cheeply than in any other country. One of the chief reasons why the American mer-chant marine has declined, I think, is that capitalists have found more profit-able investment in other branches of industry."

The announcement of Burton's an-tagonism to the Shipping Bill has a political bearing, for it will tend ms-terially to widen the breach aircady ex-isting between him and his fellow-

isting between him and his fellowtownsman. Senator Hanna.

It is probable that the River and Harbor Bill this year will carry one of the
largest total amounts ever recommended by a House River and Harbor Committee. Burton said this evening
that he hoped to have the bill ready
for introduction the second week of the
coming session. This probably will
mean its early passage. GOING TO PANAMA.

British Warnhip Phaeton Gets Orders to Join Her Sister Ship Where Colom-

to Join Her Sister Ship Where Colombian Rebels are Rampaging.

(BY DIRECT WIRE TO THE TIMES.)

VICTORIA (B. C.,) Nov. 22.—[Exclusive Dispatch.] Supplementary orders to those dispatching the British ship Pheasant to Panama this morning have been received by the Phaeton, instructing the officers of that ship to hold her in readiness to follow her sister cruiser south on a similar mission. Capt. Fleet of the Phaeton, since Admiral Beaumont's departure for Australia, is the officer in charge of this station, and the orders which have just been received are taken to mean that the revolution which has broken out at Panama and which is menacing British interests there, is assuming serious form.

By leaving in a day or so the Phaeton would overtake the Pheasant and arrive at the scene of the trouble several days before the laster, being much the faster versel. The ships are not expected to take an active part in the hostilities going on, but will simply stand by to see that British interests are not threatened.

The Pheasant left for the south early

stand by do see that British interests are not threatened.

The Pheasant left for the south early this morning. She will remain at Pan-ama as long as trouble lasts, and then proceed to England.

WOULD SHOOT A RAM.

Katahdin as a Target Upon Which to Try Its Gun's Power.

IST DIRECT WIRE TO THE TIMES.

WASHINGTON, Nov. 22.—[Exclusive Dispatch.] The Gathman Gun Company, which cialms Gathman's invention is the most powerful piece of ordnance in the world, has proposed to the Navy Department that the ram Katahdin be used as a target in the trial of the gun, which is to take place soon under the observation of the Joint Army and Navy Board. Naval ordnance experts have been endeavoring to device a target which will present the resisting qualities of a battleship, but the Gathman company wants a practical test, and is urging that the Katahdin be smortfied for the purpose, or, in lieu of that vessel, one of the Civil War monitors be used. It is not likely the department will use the ram, but the proposition concerning a monitor is more favorably viewed. The Katahdin was built on plans drawn in accordance with the suggestions of Rear-Admiral Daniel Ammen. Her

here broken hearfed, because after
following his wife for several weeks,
he found on arrival in Phoenix, where
she was living with another man, that
the pair learned of his arrival and escaped. Bain is a mining man of Las
Cruces, N. M., formerly of Quincy, Ill.
He states that during eleven years of
married life not an unkind word was
passed in the family. Six weeks ago
he returned to Las Cruces, after visiting his mines, and was informed that
his wife, with her little girl, had run
away with a bartender named Sam.

her husband had just deposited in the bank to her credit. The wayward wife and bartender had been living together openly in Las Cruces shortly before their hasty de-parture. Bain first traced the moveparture. Bain first traced the move-ments of the eloping pair to Santa Fé, subsequently learning that they spent several weeks in Phoenix, assuming to be T. L. Hodges and wife. It is be-lieved the elepers went to Los Angeles.

(FROM THE MINING FIELDS.) MMENSE BODY OF ALASKAN COAL

MANAGER THOMAS MAYON HAS TRACED ITS COURSE.

Bay and May Dip Under the Tide Flats—Atlin's Richest Quartz Ledge

DET DIRECT WIRE TO THE TIMES.)
TACOMA (Wash.,) Nov. 22.—(Exclusive Dispatch.) Manager Thomas Mayon of the Apollo Mining Company, operating on Unga Island has arrived at Juneau, with authentic news of an immense coal field, lying along Chigaik Bay, 335 miles from Unimak Pass. Mayon has been prospecting in this coal field for three years. They have traced coal veins for seventeen miles, finding broken formations in several places which disclose coal veins wholly in place.

places which disclose coal veins wholly in place.

The first vein found is four and one-half feet thick. It contains an excelent quality of lightie carrying some bitumen. Beneath this is a body of state eight feet thick, and under it a second coal vein, five feet thick. Below, three feet more of state is found a nine-foot vein of bituminous coal, assaying lift ner cent. In fixed carbon. three feet more of slate is found a nine-foot vein of bituminous coal, as-saying 55% per cent. in fixed carbon.

The formation of the coal veins dips toward the coast, and Mayon is convinced that the deposits continue under the tide flats of Chignik Bay. In this event, he figures that a railroad can be built five miles without grading to reach either of two suitable points for shipping by either sailing vessel or steamer. The exact position and continuity of the deposits are to be determined next spring with diamond drills, after which the development work already commenced will be pushed.

The richest quartz ledge ever found in Atlin District has been uncovered on the Gleaner group of claims on Taku arm. David von Cramer has reached Skagway with samples of ore in which free gold is very plentiful. He says the ledge is eighteen feet wide, and it takes a streak of wonderfully rich ore. Two and one-half ounces from this streak were pounded in a mortar, yielding nearly \$1.50 in gold. A bet of \$600 has been made at the mine that one-half a ton of picked ore will yield over \$12,000.

J. R. Mestgomery, a prospector from the White River and Tanana sections, has reached Skagway from Selkirk, being the first traveler to arrive from

naider merely an addi-

the interior since the Yukon River froze over. He reached Selkirk three days after the last steamer started up the Yukon. Being in a hurry to get out, he determined to "mush" along the shore ice. Though the ice was continually breaking beneath him, he accomplished the journey to Lake Lebarge in six days, and crossed that lake on a steamer. He counted eight scows caught on sand bars above Selkirk.

CORPSE BY THE ROAD. CORPSE BY THE ROAD.

POSSIBLE MURDERER'S VICTIM.
(BY THE NEW ASSOCIATED PRESS—P.M.)

REDDING, Nov. 22.—The body of
what may develop to be the victim of
a murder, was found tonight about
eleven miles east of here near a lumber camp. The dead man had a gash in
the back of his head, causing a pool of
blood in which the skull-rested. The
Coroner was telephoned and gave
instructions to remove the remains to
a house until morning, when he will
go out, but no one would touch the
body, so it will lie in the storm by the
roadside throughout the night. It has
not yet been identified.

\$15 Men's Suits, Four hundred and

fifty to choose

The suits on sale at \$10 are regular \$15 business suits, in either single or double-breasted sack styles. They are made of cheviot, cassimere and

worsted, and come from a maker whose very name is a guarantee of fine workmanship. These suits were made for a Chicago concern to retail at \$15. The maker for a good reason refused to deliver them, and our buyers purchased the lot at a price. We limit the sale of these suits for two days only, because we feel confident of selling the entire lot before closing time tomorrow night. If you want a \$15 suit for \$10, come around today or tomorrow.

Box coats and top coats made of tan covert cloth and oxford gray cheviot. Plain and velvet collars; sleeves are satin lined and have the new Raglan cuff; ages 4 to 14 years

FREE --- Ball and Bat with every Sult or Overcoat:

RRIGATION.

DAY, NOVEMBER 23, 1900.

the state of the s

which were good enough for the stream in its natural condition. "These two principles should be given corporate form in the resolutions which this association may present to. Congress in asking for government aid in the construction of storage reservoirs: First, that the water so stored shall be for the free use of the people, subject only to such laws and regulations as may be in force in the States through which they flow; and, second, that, in thus advocating the construction of reservoirs by the Federal government to conserve the waste waters of the arid regions, this association disclaims any purpose of drawing the government into a policy of constructing irrigation works, or of enacting lesislation for the control of 'the waters used in irrigation, as in its judgment such matters should be left exclusively to the States at present.

"And in proposing a law for the appropriation of money to build any reservoir, particularly the first, which may be built, it should contain the following provisos: First, that the vaters os stored shall be for the free use of the people, and shall be released under regulations to be established by the Secretary of War (or Interior, as the case may be:) second, that the waters so released shall, after flowing off the government reservoir property, become a part of the stream in its natural condition, and be subject to the laws and regulations of the State or States through which they

WILEYS ADDRESS.

PROFIT IN SUGAR BEETS.

"The sugar beet is a plant especially well adapted for growth on irrigate lands. In order to secure profitable results with the sugar beet, intensively the sugar beet, intensively results with the sugar beet, intensively results with the sugar beet, intensively results with the sugar beet, intensively results as the sugar beet, and the proper fertilization of the land, it proper fertilization thereof, and the careful culture of the growing plant are three essential points to success. "The water supply is the most in portant meteosological condition connected with bee growth, aside from nected with bee growth, aside from

pelled from the Transvasi by the British. It announces that "It will force the government to make an energetic demand upon Great Britain for ade-quate damages."

CIR ARTHUR SULLIVAN BREATHES HIS LAST.

HEART FAILURE AT LONDON.

Deceased Was Easily the Greatest English Composer—Sketch of His Career and His Most Famous Com-positions.

LONDON, Nov. 22.—(By Atlantic Cable.) Sir Arthur Bullivan, the mu-sical composer, died today of heart

sical composer, died today of heart failure.

SKETCH OF HIS LIFE.

INT DIRECT WIRE TO THE TIMES!

SAN FRANCISCO, Nov. 22.—(Exclusive Dispatch.) Bir Arthur Sullivan. gained world-wide fame by "Pinafore." He had done good work as a song writer, and had written several clever comic operas, but he was not known outside of England, when he went to New York with Glibert, and produced "Pinafore."

He was born in London May 13, 1842, and received a thorough musical training. His first work was the music to Shakespeare's "Tempest." "Pinafore" was the greatest success of the age. Nobody who has ever witnessed a stage performance at all has failed to hear this most delightful of comic operas. "Trial by Jury," "The Sorcerer." "Pirates of Pennance." "Patience," "Iolanthe." "The Mikado," "Teoman of the Guard," and "Gondollers," all in collaboration with Glibert, had remarkable success. They made a fortune for both men.

It is a curious fact that San Francisco was the first place in America.

TOYS OF A "JUKE" TOLD BY MANCHESTER

HIS GRACE COMING TO AMERICA TO PUT ON STYLE.

IBY THE NEW ASSOCIATED PRESS—A.M.1

LONDON, Nov. 22.—[Exclusive Dispatch.] The Westminster, Gasette prints an interview with the Duke of Manchester, who married Helena Zimmerman of Cincinnati last week. The Duke said that when he and the Duchess arrived in America, their marriage would be solemnised again on a more fashionable scale than the ceremony last week. His father-in-law, Eugene Zimmerman of Cincinnati, had placed a private car at his disposal, and he and his wife would traval around the country and see the sights. They would pay a visit to the Duke's grandmother at Natches, Miss., and would then go to Florida. Then they would return to Europe and later go to India, where he would go shooting for big game. A trip to Japan would follow, and the Duke and Duchess would return to America to witness the cup race in August, 1901. THE NEW ASSOCIATED PR

BREVITIES MISCELLANEOUS.

MACAROLO IN LUCK. Cono Macarolo, an Italian, who had already pleaded not guilty to an assault with a deadly weapon with intent to kill and murder, withdrew that plea yesterday and pleaded guilty to simple assault. The victim of the Italian's attack was Antonio Peligrino of No. 739 Castellar street. The men got into trouble over a game on August 19, and after a long quarrel Peligrino, a bigman, struck Macarolo, a little man, who promptly drew a pocket-knife, inflicting a slight wound on his assailant. Macarolo has a family of five children. Judge Smith sentenced him to twenty-four hours in the County Jail.

CRUEL HUSBAND. Grace N. Kephart was granted a divorce from Louis H. Kephart by Judge York yester-day, on the ground of cruelty.

DAMAGED BRIDGES. Many roads and bridges ever the county were damaged by Wednesday's storm, and the members of the Board of Supervisors spent the day yesterday in their various districts.

MALM YGLESIAS DISTURBED AT LAST.

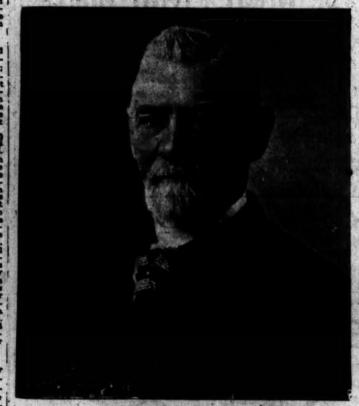

THE STORY OF A DEADLY HATE TOLD YESTERDAY.

Witness Says Yglesias Challenger Peres to a Pistol Duel-Rogers Want

Yesterday, for the first time since Benjamin Peres, the worm doctor, was brought to the Receiving Hospital bleeding his life away, Manuel Yglesias deigned to take interest in the grinding of the machinery that is tearing to get him to the gallows.

They told how, in the bitterness of his hate, he had challenged Peres to fight a duel. Then this man of iron calm leaned forward in his chair and bestowed upon the winess a look as anxious as might be decently expected of a man living through such a torture. Bingularly enough, Genaro Yglesias, charged as accessory to the murder of Peres, has stopped worrying altogether, although at-first he was in agonies of fright and apprehension. Yesterday he was quite cheerful, as though he had come to the conclusion that be-

Tgiesias."
"I got nothing against Tgiesias,"
said Banning. "He don't speak to me,
but I don't know why."
ROMARES TESTIFIES.

"Peres kept saying; 'Liar.'

NOBODY TOLD HIM.

Rogers threw out a bitter shot at the prosecution and the clan of Peres when a little boy named Jim Flynn took the stand. The boy saw the shooting, and in describing it, said that Genaro had attempted to draw a gun tefore the shooting began.

"Who told you to say that?" asked Rogers, pointedly, when it came to the cross-examination.

For a moment there was a dead silence. The boy looked at the lawyer, and the lawyer looked at the boy. Presently they both grinned.

"Nobody," said Jim at last.
"Then why did you hesitate so long saying so?"
"I didn't know what to say."

producer is about 60 feet from the famous Monarch well. It is announced that Jewett-Biodget-Beal have decided to finish its well on section 25, 21, 24, as it stands. The well is said to be good for seventy-five barries at present. The company is crecting a derrick for well No. 2.

The Cuyama is now being located by searchers for oil, and it is said a large number of claims have been staked out in the neighborhood of Samia Barbara and Samia Barbara and Samia Barbara and Kern en 28, is reasonable to seat on 20, 28, 28, have been somewhat nervous of late in regard to its value," says the Californian, "but the news from the Edgar on 15 and the same for the same accincidence that all the strikes in that neighbornood have seemed to be good, but the top only in each case was touched, leaving the formation beneath to be suesed at. Now, however, on 13, the third sand has been reached, and it shows up as fine and rich as elsewhere, and it seems a certainty that the belt embraces that country. On 24, the same fortunate condition of things caists, the Santa Barbara and Kern's hole saving been driven; into the prolife stratum removing all doubt of the charter of the ground. It is oil land."

Among the recent transfers in the northern field the following are reported:

J. H. McDonald of Oakland and E. K.

vatens from the Santa Ana River
sich has left its banks three miles

DISASTER IN SANTA

(BY DIRECT WIRE TO THE TIMES.)

SANTA BARBARA, Nov. 22.—[Exclusive Dispatch.] A freshet in Bradley's Cafion caused a flood down the Santa Maria Valley, extending ten miles to the town of Santa Maria, where it undermined a warehouse and flooded a flouring mill, so work had to stop. No former flood approached it.

A party, by private conveyance, starting from here to cross the Santa Tres range for Los Olivos yesterday, consisted of W. J. Paddock, wife and brother, in crossing a swollen creek near the Kelley ranch their carriage was swept away by débris, and their bagsage was lost. The horses were cut loose, and saved themselves. The passengers crossed on a footlog. They reached Los Olivos tonight, after two rough days on the mountain.

CAN DIEGO COUNTY

Angeles was suspended last night. The Santa Fé train due at 7:20 o'clock last night was stalled in Santa Ana Cañon, and arrived here late this afternoon. The motor trains to San Bernardino were not delayed, and the Santa Fé San Jacinto train ran on time.

A washout is reported between Perris and Elsinore on the Temecula branch.

BIG BURGLARY AT REDLANDS

Seven Thousand Dollars' Worth of Plunder Secured.

REDLANDS, Nov. 22 .- [Regthis evening while the family of J. H. Fisher on Cedar avenue was burglarized. The thieves secured jewelry was effected through a secreached by means of a ladder. The jewelry consisted of a diamond and ruby ring. a

TRAPPING BEAR

NEW AND ORIGINAL SCREME OF A MAINE MAN.

He Combines Cider Making and Bear Hunting With the Greatest Success. Catches a Few Neighbers as Well as Bears.

New York Sun: The bears of eastern Maine have eaten plump arons and sweet apples until they are fat and sweet apples until they are fat and saucy, performing more venturesome deeds from a spirit of frolic than most bears would dare when impelled by hunger. Fully 20 per cent. of the sapling trees in the woods between Holden and Dedham are marred and scratched by the claws of cubs and old bears who have reached far aloft to test their toe-nails and show other bears how tall and strong they are.

This scratching of the bark on trees is a bear's way of giving a challenge to a fight. He stands on tiptoe and stretches his fore-paws as high as he can, digging his claws deeply into the fresh bark, as much as to say that he is the tallest and strongest bear in that vicinity, and if there is any other bear in the neighborhood who doubts the assertion, here is the cartel of de-

diamond and ruby ring a ring set with two large diamonds, four rings set with diamonds and rubies, a sapphire and diamond ring, a pearl pendant, a diamond plasse with two large stones, a green enameled watch set with perils and brilliants. a spider brooch and other trinkets. The burglars also secured a pearl-handled frevolver and a child's savings bank.

The thieves did their work aystematically and left no clue behind them. Sheriff Rouse of San Bermardino was sent for at once and lie is now here trying, in conjunction with all the local officers, to get some clue to the men who secured the booty.

Two nights ago an attempt was made to enter another house in a similar manner send the officers are inclined to think that that attempt was by the same men and that the same lender was used.

Mr. Fisher is one of the most considerable real estate, inclining the fine block at the corner of Cirrus and Orange streets.

of cold in California worked a transformation. The gold hunters found the most equable climate in North America and a soil of uncerolied tertility. Nor grain fields and vast corchards cover those strict plane, and alter on a can see the largest vineyards in the world. California is the home of fitteen undried thousand people, and her exports reach every principal port of the world.

When William H. Seward completes the negotiations for the purchase of Alaska, the same doiettal dirgs was chanted by those who are nobling in Alaska the same doiettal dirgs was attention of capitalists and made then release. The control of the world alaska the same doiettal dirgs was attention of capitalists and made then release. The control of the world alaska the same solution would lessen their propie who said fine the public of the propie who said fine the only mineral in Alaska. The are quarted in the said the said

LE PLASTERED THE WHOLE OF MONTANA.

THOMPSON, PAMOUS BILLPOSTER, IN LOS ANGELES.

Monopolized All the Available Space in Clark's State With Flaring Lithographs During the Recent Campaign There, Making a Queer Record.

W L Thompson, the man who steered the queerest political campaign of re-cent years, is in Los Angeles. His now famous biliposter campaign ended with the election of McKinley, and he is back to the theatrical world assain.

building.

The campaign managers for Clark took cognizance that a larger part of the voting population of Montana consisted of minera, who either cannot or will not read campaign literature. They must have something more obvious.

Thompson has a reputation in the theatrical world for clever advertising "gags," so they sent for him. They told him to plaster the State with posters. There were posters allegarical, and posters argumentative, and posters that told stories, and posters that pointed

year.

The company is now at San Jose and there is a slight difficulty in the way of its coming to Los Angeles. Thompson is unwilling to play at Hazard's Pavilion, which was the plan of local managers for his attraction.
